You Need to be a Chamber member because...

- The greatest advantage comes through the organized leadership of the business people.
- Behind every forward-looking community there is an organization of clear-eyed, broad visioned men and women.
- The chamber handles matters of general interest which individuals, or even firms, would not attempt and which if they did attempt, could not handle.
- The chamber conduct effective community and public service, in the interest of all.
- The chamber is working to make the community a better place to live in and to do business in, by replacing what may grow into a selfish business spirit with an unselfish business spirit.
- The chamber needs your personal interest, the benefit of your judgement and the stimulus of your loyal criticism to make it an effective community agent.

We call them members but they are really partners!
It is a partnership that brings together the brightest thinkers to create an active and responsible chamber. They are people like you, leaders who come together to solve problems and create opportunities. They help to establish a stronger more vital business environment - and that's good business for all of us.
